## Who do I contact when someone dies?

The following table provides a list of people and organisations to contact when someone dies. The list is not exhaustive but we do hope that it will be of benefit to you in contacting most organisations.

Use the list to also note down specific account details to have on hand when advising organisations. Place a tick in the last column when complete

Please note that some organisations will not close certain accounts until you are able to provide them with a copy of the Official Death Certificate. This varies, so take instruction from each organisation on specific requirements.

Organisation/person	Contact details	Account Details	Contact made?
Accountant
